Subject: EPA MSGP info
Attachments: EPA-HQ-2021-MSGP-RTC.pdf

Hey Paul,

Following up on our call this morning, as of yet there haven't been any legal challenges to the 2021 EPA MSGP. However, in accordance with the FR notice (see language below), it appears as though that window is open until July 3, 2021, which would be 120 days after the permit's issuance date.

"In accordance with 40 CFR part 23, the 2021 MSGP shall be considered issued for the purpose of judicial review on March 5, 2021. Under CWA section 509(b), judicial review of this general permit can be requested by filing a petition for review in the United States Court of Appeals within 120 days after the permit is issued."

In addition, I have attached the 2021 MSGP Response to Comment document in case you want to view how the Agency responded to some of the comments that were received during the public comment period. I'll warn you though, it's about 1,500 pages!

Please let me know if there is anything else that I can help you with or that you would like to discuss.

Thanks,
Liz
